MADE IN CHINA

SAFE WORKING LOAD:  
300 LB.

HaulMaster®

# 3/8" x 75 Ft. CAMOUFLAGE POLY ROPE

- Ideal for hanging game, securing tents, tarps and loads
- Diamond-braid minimizes stretch for long life and durability
- Resistant to abrasion, gas, oil, mildew, and chemicals

## WARNING

### To prevent serious injury and DEATH:

1. Do not use to lift people or lift loads over people.
  2. Do not exceed 300 lb safe working load. Be aware of dynamic loading! Sudden load movement may briefly create excess load causing product failure. Knots will reduce capacity substantially.
  3. Wear ANSI-approved safety goggles and heavy duty work gloves during use.
  4. Keep away from children.
  5. Inspect before use; do not use if damaged, frayed, or worn.
- Save these warnings.**

## **ADVERTENCIA**

Los cepillos de alambre, si se usan inadecuadamente, pueden causar lesiones graves. Para evitar lesiones, el operador debe leer, comprender y seguir estos lineamientos de seguridad:

**Entregar esto al operador. Colocar en el área de trabajo. NO DESECHAR.**

Nunca exceda la máxima clasificación de velocidad (RPM máx.) marcada en el cepillo.

Inspeccione el cepillo antes de usarlo. No use cepillos dañados. Despues de montarlo opérelo durante un minuto en un área protegida antes de usarlo.

Nunca quite la protección de seguridad de su herramienta eléctrica. Asegúrese de que el tipo de protección sea el adecuado para el tipo de cepillo de alambre.

Todas las personas en el área de trabajo deben usar anteojos de seguridad aprobados ANSI Z87+ y una careta facial.

Use guantes protectores. Use otro equipo de protección: auditiva, delantal de cuero, cuando sea apropiado.

El estar expuesto al POLVO generado en el lugar de trabajo puede tener como resultado una lesión. Lea la HDS para la pieza con la que trabaja. Utilice la protección respiratoria aprobada por NIOSH que sea adecuada para las condiciones. Cumpla con OSHA, NIOSH, y ANSI Z88.2.

Para cepillos de acero inoxidable:

**ADVERTENCIA:** Este producto puede exponerlo a productos químicos, incluido el níquel, que en el estado de California es cancerígeno.

Para cepillos de acero al carbono y latón:

**ADVERTENCIA:** Este producto puede exponerlo a productos químicos, incluido el plomo, que en el estado de California considera que causa cáncer y defectos de nacimiento u otros daños reproductivos.

## ⚠ WARNING

Wire brushes used improperly can cause serious injury. To avoid injury the operator must read, understand, and follow these safety guidelines:

**Deliver this to the operator. Post in the work area. DO NOT DISCARD.**

Never exceed the maximum speed rating (Max RPM) marked on the brush.

Inspect the brush prior to use. Do not use damaged brushes. After mounting run for one minute in a protected area prior to use.

Never remove the safety guard from your power tool. Ensure the type of guard matches the type of wire brush.

All people in the work area must wear ANSI Z87+ approved safety glasses and a face shield.

Wear protective gloves. Wear other protective equipment: hearing, leather apron, when appropriate.

Exposure to DUST generated from the workpiece can result in injury. Read SDS for workpiece. Wear NIOSH approved respiratory protection appropriate to the conditions. Comply with OSHA, NIOSH, and ANSI Z88.2.

For Stainless Steel Brushes:

**⚠ WARNING:** This product can expose you to chemicals including Nickel which is known to the State of California to cause cancer.

For Carbon Steel and Brass Brushes:

**⚠ WARNING:** This product can expose you to chemicals including Lead which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to: [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## ⚠ AVERTISSEMENT

Un mauvais usage de la brosse métallique peut causer des blessures graves. Pour éviter toute blessure, l'opérateur doit lire, comprendre et suivre ces consignes de sécurité :

**Remettez ceci à l'opérateur. Affichez ce document dans la zone de travail. NE PAS JETER.**

Ne jamais dépasser la vitesse maximale (tr/min maximum) inscrite sur la brosse.

Inspecter la brosse avant l'utilisation. Ne pas utiliser une brosse endommagée. Après le montage, faire fonctionner pendant une minute dans une zone protégée avant l'utilisation.

Ne jamais retirer le dispositif de protection de votre outil électrique. Assurez-vous que le type de dispositif de protection correspond au type de brosse métallique.

Toutes les personnes se trouvant dans la zone de travail doivent porter des lunettes de sécurité approuvées ANSI Z87+ et un écran facial.

Porter des gants de protection. Porter d'autres équipements de protection : protecteurs d'oreilles, tablier en cuir, le cas échéant.

L'exposition à la POUSSIÈRE produite par la pièce travaillée peut entraîner des blessures. Lire la FDS de la pièce travaillée. Porter une protection respiratoire approuvée par NIOSH convenant aux conditions de travail. Se conformer aux normes OSHA, NIOSH et ANSI Z88.2.

Pour les brosses en acier inoxydable :

**⚠ AVERTISSEMENT :** Ce produit peut vous exposer à des produits chimiques, y compris le nickel, qui est connu dans l'État de Californie pour causer le cancer.

Pour les brosses en acier au carbone et en laiton :

**⚠ AVERTISSEMENT :** Ce produit peut vous exposer à des produits chimiques, y compris le plomb, qui est connu dans l'État de Californie pour causer le cancer et des malformations congénitales ou d'autres problèmes de reproduction.

# Amazon Operating Instructions

Thank you for choosing Wathai. Please read the following instructions before using the fans.

**Notice: Quality problems caused by non-human factors,**

**Free replacement within one year, Please contact us email ,thanks.**

Below is the two key points to make sure the DC Fan works.

1、 Make sure the power output is the same voltage as the fan.

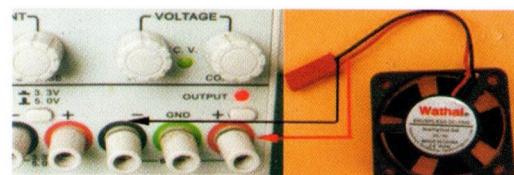

★ Fans may burn out if the output voltage is 20% higher than the rated voltage marked on the fans .

★ Fans can work but the speed will be lower under lower voltage

★ The power current must be higher than fans, or the power will burn.

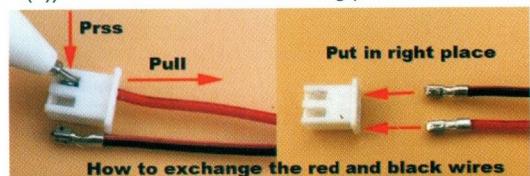

2、 Make sure the positive(+) and negative(-) poles are connected in the right places.(The red wire on the fan should be connected to positive pole while black wire connected to negative pole.)

3、 The positions of the red and black wires on the fans' connectors must be the same if you want to replace the old fan. You must exchange the wires if they are different. The following picture shows two connectors with opposite wire (red&black) positions.

4、 How to exchange the red and black wires.(positive(+) and negative(-))Please refer to the following picture.

5、 Please contact Amazon customer service for return or replacement, so that new fans can be shipped from amazon warehouse and you can get it faster . Login your account → Help → Contact Us

Tel: 1(888)280-4331

6、 For technical support, please contact

Skype:Wathai\_2

E-mail: wathai@foxmail.com

Do not touch the fan blades with your fingers  
When the fan is working to avoid hurting your hands

# Sili® Glue Roller & Glue Tray Combo

Ideal for woodworkers, arts, crafts, hobbyists and more!

## Pour Your Glue

Pour as much glue as you need for your project into the tray

## Apply Glue to Roller

Apply glue to the roller by rolling it into the glue in the same fashion you would use a paint roller.

## Roll On Glue

Roll the glue on to your project

## Rinse with Water

Using warm water, simply work the glue off of the roller and tray and let dry for reuse or you can...

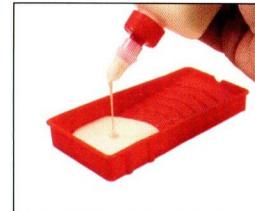

**...Let the Glue Dry**  
Let the glue dry and it peels right off the roller and the tray!

4614

2025.06 AMAZON \$17

Sili® Glue Roller & Tray - The Basics

SOLID STEEL  
beam - good qualit.

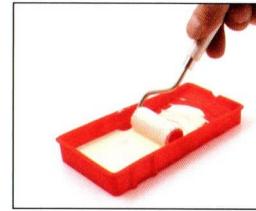

## Easy To Clean with Warm Water

The Sili® Glue Tray holds enough glue to help you get your project done. Simply pour or dispense your glue into the tray and let the glue run to the bottom.

## Let the Glue Dry

Whether we are in a rush or simply just forget, sometimes the glue dries directly on to the tray or roller. This can be problematic for some trays or rollers, but not the Sili® Tray and Roller! Most dried glue will simply crack and peel right off!

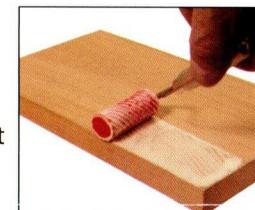

## Apply Glue to The Roller

The Sili® Glue Roller has been specially designed with grooves on the roller to help keep as much glue on it as possible. Simply cover the roller with glue like you would a paint roller with as much glue as needed.

## Apply Glue To Work Surface

Once the roller is covered with the right amount of glue, apply the glue evenly on your work surface. Roll the glue out in slow, even strokes and keep the roller flat on the work surface.

## Works with Multiple Glue Types

While many woodworkers love the Sili® Glue Roller and Tray for glue ups, the Sili® Glue Roller can be used with many different types of adhesive glues like wood glue and school or craft glue.

# NICREW Air Pump

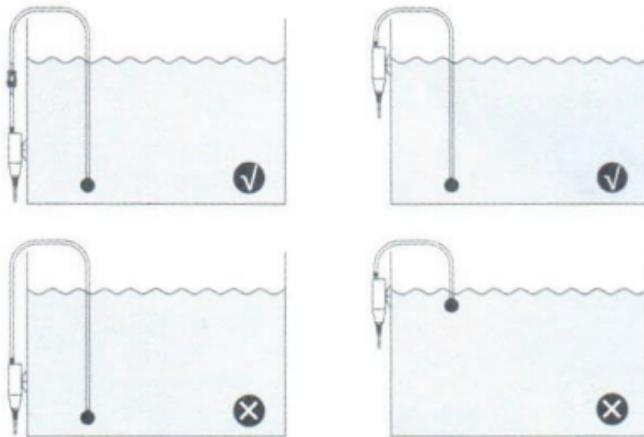

2025.03 Amazon

"quiet" aquarium pump

Low power DC air pump  
Operating for 1 month as of  
2025.06

- ▶ good quiet performance
- ▶ compact design

**Nano Silent Aquarium Air Pump**  
Instruction Manual

## Specifications

Model: YDQB4105

Wattage: 1.5W

Flow(L/H):  $18.6 \pm 10\%$

Pressure(kPa):  $12 \pm 10\%$

Decibel(dbA):  $\leq 33$

## Maintenance

- Regularly check the air tube is not being clogged, bent and without any air leakage.
- Regularly check the air stone is not being clogged, and replace the air stone if necessary.

## Troubleshooting

1. The pump is not working.

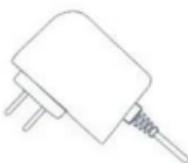

a. Check connection to electricity.

b. Check the connection of the tube to the pump and the air stone.

## Package List

1 x Air Pump

1 x Power Supply

1 x Rubber Suction Cup

1 x Air Tube

1 x Air Stone

1x Check-valve

## Installation

- Connect air tube to the air stone and air pump outlet.
- Stick suction cup onto the reverse side of the pump, attach air pump onto outside wall of the aquarium, and locate the pump above water level to avoid any possible water counterflow.
- Immerse air stone into aquarium tank. Cut a section based on required length if the air tube is too long.
- Connect the power adapter to electricity socket, then air pump works.
- Upon the completion of the installation, plug in, then disconnect and subsequently reconnect the air tube, repeat several times for better outcome.

Note: To get ideal working effect, please use original accessories.

## Safety Warnings

To avoid possible electrical shock, do not immerse pump in water. If pump falls into the water, or otherwise becomes wet, do not reach for it until you have first unplugged it.

- To prevent possible electrical shock resulting from water backsiphoning, pump should be used with a check-valve or positioned higher than the water level.
- Carefully examine appliance after installation. It should not be plugged in if there is water on parts not intended to get wet.
- Do not operate appliance if it has a damaged cord or plug, or if it is malfunctioning, or if it is dropped or damaged in any manner.
- When removing filters, airstones or air-operated ornaments from aquarium, do not let water run into the pump. Leave pump running and prevent back-siphoning by removing the open end of the tubing from the pump nozzle and taping it to the top frame of the aquarium.
- The air pump will overheat and get damaged if it cannot discharge air adequately, never close the outlets, make sure the air tube is not clogged or bent.
- A G.F.C.I (Ground fault circuit interrupter) & surge protector is recommended for all electrical appliances.
- A "drip loop" should be arranged by the user for each cord connecting an aquarium appliance to the receptacle. The "drip loop" is the part of the cord below the level of the receptacle, or the connector if an extension cord is used, to prevent water traveling along the cord and coming in contact with the receptacle.

**2. The airflow is insufficient.**

- a. Check air tube or air stone is not being clogged, bent, or cracked.
- b. Check power supply voltage whether lower than recommended or not.
- c. When the pump is working, if you feel the air effectiveness is not perfect, upon the completion of the installation, switch on the power, then disconnect and subsequently reconnect the air tube, repeat several times for a better outcome.

**3. There is abnormal noise or cracking sound.**

- a. The device is out of usage.
- b. Disconnect the pump from the power supply and contact us at support@nicrew.com.

**4. The sucker does not stick to the aquarium wall.**

- a. The surface of the aquarium wall is dirty or not smooth, the inner surface of the sucker is dirty.
- b. Clean the surface of the sucker and the wall of the aquarium tank.

**Disposal Information (for EU countries only)**

The symbol shown as follows, applied to the product or on its package, at the end of life, the product must not be thrown away, or disposed into domestic waste!

**Limited Warranty**

NICREW products carry a 12-month limited warranty from the date of purchase. If your product is within warranty and you require a replacement part or service, please contact us at support@nicrew.com. For more information, please visit [www.nicrew.com](http://www.nicrew.com)

# 45mm Rotary Cutter Kit

- For sharp, quick, and precise trimming.
- Durable blades are excellent for cutting papers and fabrics.

functions great,  
less expensive blades  
than 60mm

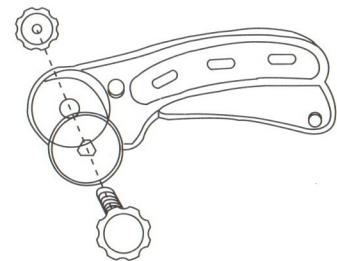

Amazon 2025

## Usage & Benefits

Features comfortable grip handle for excellent control. Lock button design to retract the blade safely when pressed. Blade is made of SKS-7, razor sharp and long lasting. Blade can be assembled to either side of cutter for both left and right hand users.

- All-Purpose Cutting
- Easy to Use
- Blade Safety Shield

## How to change the blade

- 1 Remove old blade from cutter. Place blades in the plastic container, tape securely and dispose.
- 2 Refer to diagram above or follow manufacturer's specific Instructions for blade replacement procedure.
- 3 Store additional blades In plastic container as they are extremely sharp.

QUALITY  
Guaranteed

PLEASE RECYCLE  
This Packaging

Made in China

Caution: Contains sharp blade

⚠  
Don't touch the sharp edge of the blade.  
Blade is extremely sharp, please handle with great care.  
Retract blade fully when not in use.  
Keep out of reach of children.

# DISPENSE ALL INSTRUCTIONS

2025.05

**Please note:** This product is not a medical product and cannot be used as such. Although this product includes syringes and blunt tipped dispensing needles\*, which are commonly associated with medical devices, this product is designed for industrial and household use only. If used as a medical product it will result in bodily harm and may cause death. Do not attempt to use this product for any medical uses.

## Attaching the Dispensing Needle or Syringe Cap

To attach a blunt tipped dispensing needle or syringe cap, push down lightly and twist in a clockwise direction until firmly attached to the end of the syringe tip. To detach, turn counterclockwise until the dispensing needle or syringe cap is released.

## Filling the Syringe

**For thin fluids:** Dispense All syringes can be filled with thin fluids by placing the tip of the syringe into the fluid and pulling back on the plunger to draw the fluid inside the syringe. The accompanying blunt tipped dispensing needles may be attached to the syringe tip to facilitate the retrieval of liquids from bottles or containers.

**For thick or viscous fluids:** The syringes can be filled with many thicker fluids in the same way they can be filled with thinner fluids (see above). For very thick or viscous fluids, such as glues or adhesives, it is recommended that the syringe be back filled.

**How to back fill:** Remove the plunger from the back of the syringe. Seal the syringe tip with one of the syringe caps included in this product. Carefully transfer your thick or viscous fluid to the syringe through the back opening (where the plunger was removed). It is recommended that the syringe is filled no more than  $\frac{3}{4}$  of the way full. After filling, re-install the plunger to the back of the syringe. Flip the syringe so that the tip is pointed up and tap the syringe until all air pockets move to the tip of the syringe. Slowly remove the cap to relieve pressure and allow air to escape. (Tip: Gently push the plunger to completely remove air pockets.) The syringe is now ready to dispense.

## Storing Liquids in the Syringe

The included cap(s) in this product may be used to store liquids in a syringe. Please note that if oils are stored in a syringe longer than one month, the syringe plunger's rubber seal may swell and cause difficulty with dispensing. Glues, adhesives, and solvents may dry out if stored longer than two months.

\*Please note: A blunt tipped dispensing needle refers to an item that is not sharp like a medical hypodermic needle. "Blunt" refers to the tip of the dispensing needle, which is shaped like a tube or straw and has no sharp point for hypodermic use. Therefore, this product should not be used for injections or any hypodermic uses. Do not attempt any medical uses or injections with the blunt tipped dispensing needles, as it will result in bodily harm and/or death.

2025.05 Amazon Dispense-all

From the team at C-U Innovations, LLC

# ≥ Thank you ≤

for your purchase

Every time we get a 5-star review, Nathan turns the office lights to disco mode and Matthew beeps the forklift horn in excitement. When we don't get 5-stars, Rebecca builds a pillow fort of sadness, while Matthew looks up puns to make himself feel better, and Nathan drinks consolatory chocolate milk. All that to say, if you are satisfied with your order, we would really appreciate a 5-star review from wherever you purchased this product. As a small business, your positive reviews and feedback help us continue to improve and grow.

Something wrong with your order? We want to make it right. Please contact us if you experience any problems with this product or our service and we will try our hardest to resolve any issues.

Text or call us at 217-398-1299

or email us at [support@c-uinnovations.com](mailto:support@c-uinnovations.com).

This indoor carpet tape is recommended for use on vinyl, ceramic and hardwood floors. **NOTE:** This tape is not appropriate for outdoor use or for securing rugs over carpets.

Instructions:

1. Make sure carpet backing is clean.
2. Apply at room temperature, never below 50°F (10°C).
3. Thoroughly clean surface to be carpeted. Allow to dry if necessary.
4. Leaving liner attached, apply tape to flooring surface. Place tape around carpet perimeter. If area is larger than 1,22 m (4') by 2,44 m (8'), place a strip in the middle of the area. High-traffic areas – use diagonal strips.
5. Leaving liner attached, press down with a roller or by hand to secure tape to floor.
6. Roll half of carpet up and remove tape liner. Unroll carpet onto tape.
7. Press carpet firmly onto tape.
8. Repeat step six with the other half of the carpet.

# Scotch® INTÉRIEUR Ruban pour tapis

POUR LES PLANCHERS EN VINYLE, EN CÉRAMIQUE ET EN BOIS FRANC

- Tient fermement
- Conçu pour les surfaces lisses

10A  
1,5 PO x 14 VG  
3,81 cm x 12,8 m

3M

Ce ruban pour tapis à usage intérieur est recommandé pour une utilisation sur les planchers en vinyle, en céramique et en bois franc. **REMARQUE :** Ce ruban ne convient pas à une utilisation à l'extérieur ou à la pose de carrelages par-dessus des tapis.

Directives :

1. S'assurer que l'endos du tapis est propre.
2. Ne jamais appliquer à une température inférieure à 10 °C (50 °F).
3. Nettoyer soigneusement la surface sur laquelle le tapis sera appliquée. Laisser sécher, au besoin.
4. Appliquer le ruban, sans retirer la doublure, sur la surface du plancher. Placer le ruban sur le périmètre de la surface où le tapis doit être appliqué. Si la surface dépasse 1,22 m (4 pi) x 2,44 m (8 pi), placer une bande de ruban au milieu de la surface. Pour les endroits à forte circulation, appliquer aussi des bandes diagonales.
5. Sans retirer la doublure, presser le ruban sur le plancher à l'aide d'un rouleau ou à la main pour assurer qu'il adhère fermement au plancher.
6. Rouler la moitié du tapis et retirer la doublure du ruban pour cette section. Dérouler cette moitié de tapis sur le ruban.
7. Presser fermement le tapis sur le ruban.
8. Répéter l'étape 6 avec l'autre moitié du tapis.

# Bonds Virtually Everything

Wood, Stone, Metal,  
Ceramic, Foam, Glass  
& More!

Wood

Stone

Metal

Ceramic

Foam

Glass

**Directions:** All surfaces must be clean and tight fitting. Wear gloves to avoid skin contact. Gorilla Glue will stain skin and ruin clothes.

## 3 Easy Steps:

### 1. Damp It

Gorilla Glue is cured with moisture. Lightly dampen one surface with water. **Do not add water to bottle.**

### 2. Glue It

Spread a *thin* layer of Gorilla Glue on other surface.

### 3. Clamp It®

Clamp objects together for 1-2 hours. You can use heavy objects to achieve clamping pressure. Bond line improves with better clamping. Full cure in 24 hours.

**NOTE** **DO NOT MICROWAVE OR HEAT. DO NOT OVER APPLY GLUE.** A little goes a long way. While curing, glue will expand 3-4 times creating an incredibly strong bond line. Be careful of squeeze-out.

**STORAGE:** After each use, wipe nozzle clean with a dry cloth and tightly replace lid. Store in a cool, dry place. **Store away from children and animals.**

Not recommended for use on polyethylene or polypropylene plastics.

**WARNING: EYE & SKIN IRRITANT. MAY PRODUCE ALLERGIC SKIN REACTION.** Do not swallow. Do not get in eyes. Do not get on skin or clothing. Do not breathe fumes. **KEEP OUT OF REACH OF CHILDREN.** Wear safety glasses and chemical resistant gloves. Do not microwave or heat. Do not leave in hot vehicle. May cause sensitization by inhalation and skin contact. Individuals with chronic asthmatic conditions should consult a physician prior to using product. May cause gastro-intestinal blockage if swallowed. Contains: diphenylmethane diisocyanate (MDI) mixed isomers, polymers and prepolymers. **FIRST AID TREATMENT:** If swallowed, call a poison control center or doctor immediately. Do not induce vomiting. If in eyes, rinse with water for 15 minutes. If on skin, rinse well with water and gritty soap. If breathed in, move person into fresh air. For medical emergencies only, call 800-420-7186. **WARNING: Cancer - www.P65Warnings.ca.gov**

**ADVERTENCIA: IRRITA LOS OJOS Y LA PIEL. PUEDE PRODUCIR REACCIÓN ALÉRGICA EN LA PIEL.** No ingerir. Evite el contacto con los ojos. Evite el contacto con la piel o la ropa. Evite respirar el vapor. **MÁNTENGA LEJOS DEL ALCANCE DE LOS NIÑOS.** Use lentes de seguridad y guantes resistentes a los químicos. No caliente ni coloque en el horno de microondas. No deje el producto en un vehículo caliente. Puede ocasionar sensibilización si se inhala o entra en contacto con la piel. Las personas con afecciones asmáticas crónicas deben consultar con un médico antes de usar el producto. Si se traga, puede ocasionar obstrucción gastrintestinal. Contiene: una mezcla de isómeros, polymers y prepolimeros de diisocianato de diphenilmetano (MDI). **TRATAMIENTO DE PRIMEROS AUXILIOS:** En caso de ingestión, llamar de inmediato al centro de toxicología o al médico. No provoque el vómito. Si hay contacto con los ojos, enjuague con agua 15 minutos. Si hay contacto con la piel, enjuague bien con agua y jabón arenoso. En caso de inhalación, traslade a la persona al aire libre. Llame al 800-420-7186 en caso de emergencias médicas únicamente. **ADVERTENCIA:** Este producto contiene una sustancia química que el estado de California reconoce como cancerígena.

Conforms to ASTM D-4236

#### FEATURES

- Tool adjusts to accommodate 30-10 AWG wire and cable.
- Works with fiber optic cable to remove outer jacket.
- Economical tool for multiple cable types.
- Dipped handles cushion grip to provide comfort.

#### CARACTÉRISTIQUES

- Outil réglable compatible avec des conducteurs et câbles de 30 à 10 AWG.
- Permet de retirer la gaine externe de câbles à fibre optique.
- Outil économique pour multiples types de câbles.
- Poignées gainées à revêtement souple de grand confort.

#### FUNCIONES

- La herramienta se ajusta para trabajar con alambres y cables 30-10 AWG.
- Funciona con cable de fibra óptica para eliminar el forro exterior.
- Herramienta económica para varios tipos de cable.
- Empuñadura acolchada de mangos por inmersión para excelente confort.

Paladin Tools PA1161 Adju...pper and Cutter,  
30-10 AWG New

## ADJUSTABLE WIRE STRIPPER & CUTTER

PINCE À COUPER ET À DÉNUDER RÉGLABLE  
PELACABLES Y CORTACABLES AJUSTABLE

**Cuts & Strips:**  
Coupe et dénude :  
Corta y desforra:

**30-10 AWG**

**PALADIN** TOOLS

## **Operating Instructions**

### **Cutter:**

1. Insert cable into the flat cutting area. Hold cable firmly and square to tool. Close handles completely.

### **Stripper:**

1. Insert cable into the "V" notch stripping area. Close handles completely and pull tool away from cable in a straight, direct motion to remove material.
2. If the stripper is not stripping properly, corrections can be made by adjusting the slot screw.
3. Insert flat-bladed screwdriver into the slot screw and turn towards the left to loosen.
4. Slide slot screw to allow the blade to close either tighter or looser around the cable to strip or cut it.
5. Tighten slot screw fully when proper adjustment is made.

## **Mode d'emploi**

### **Coupe-câble :**

1. Enfiler le câble dans la zone de coupage plate. Tenir fermement le câble et mettre l'outil d'équerre. Serrer complètement les poignées.

### **Pince à dénuder :**

1. Enfiler le câble dans l'encoche de dénudage en V. Serrer complètement les poignées et tirer l'outil hors du câble d'un geste continu et rectiligne pour retirer le matériau.
2. Si le dénudage ne se fait pas correctement, ajuster la vis du trou oblong comme il se doit.
3. Insérer le tournevis plat dans la vis du trou oblong et la tourner vers la gauche pour la desserrer.
4. Faire coulisser la vis de manière à permettre à la lame de se serrer plus ou moins autour du câble à dénuder ou à couper.
5. Serrer complètement la vis du trou oblong une fois que le réglage est correct.

**Full Lifetime Warranty \*** This product is warranted to be free of defects in material and workmanship for as long as the original consumer owns the product. At Fiskars Brands, Inc.'s option, defective product will be repaired, replaced, or substituted with a product of equal value. For warranty service, call 1-866-348-5661 or contact Fiskars Brands, Inc. at included address. Fiskars Brands, Inc. shall in no event be liable for any incidental or consequential damages. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives you specific legal rights, and you may have other rights, which may vary from state/province to state/province. \*excludes rotary blade

**Garantie à vie \*** Ce produit est garanti contre tout vice de matières premières et de fabrication aussi longtemps que le consommateur original en demeure le propriétaire. À la discréption de Fiskars Brands, Inc. tout produit défectueux sera réparé, remplacé ou substitué contre un produit de valeur équivalente. Pour obtenir le service de garantie, composez le 1-866-348-5661 ou communiquez avec Fiskars Brands, Inc. à l'adresse indiquée. En aucun cas Fiskars Brands, Inc. ne sera tenue responsable des dommages accessoires et indirects. Certains(es) états/provinces ne permettent pas l'exclusion ou la limitation des dommages accessoires ou indirects, de sorte que les exclusions ci-dessus peuvent ne pas s'appliquer dans votre cas. Cette garantie vous confère des droits spécifiques reconnus par la loi en plus d'autres droits pouvant varier d'un(e) état/province à l'autre. \*exclut la lame rotative

# 18-1201

# "500" REAR ADJUSTABLE TWO WAY SPRING-LOX POSTERIOR AJUSTABLE DE DOBLE ACCIÓN TIPO "500"

Cont.: 2 Pieces / Piezas

You should install units as shown in drawing

It is recommended that 2 Spring-Lox be used on each coil spring.

Usted debe instalar las unidades de acuerdo al diagrama.

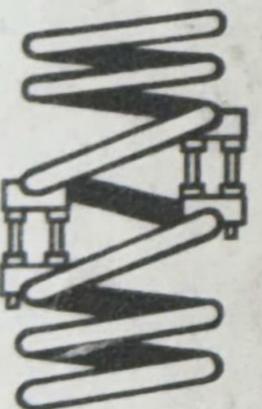

Se recomienda el uso de 2 Spring-Lox en cada resorte de espiral.

"500" Rear Adjustable  
Two Way SPRING-LOX  
SPRING-LOX Posterior Ajustable  
de Doble Acción Tipo "500"

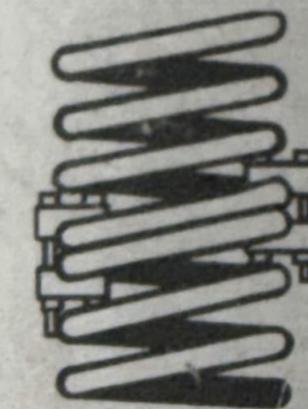

## INSTALLATION INSTRUCTIONS INSTRUCCIONES PARA LA INSTALACIÓN

1. For the Up-Lox position raise rear of car to relieve weight on springs. This will aid you in installing Spring-Lox.
2. For the Down-Lox position, it is recommended to keep full weight on rear coils by not raising rear end of car.
3. Check for clearance to make certain that assembly will not rub against parts of vehicle.
4. Tighten adjusting nuts to a position where assembly is wedged in tight and coils have been spread or compressed sufficiently to retain Spring-Lox in solid position. Repeat on other spring.
5. Lower car and recheck assembly to be certain it does not rub against frame. Final adjustment can be made by tightening or relieving nut pressure for desired position.
6. After driving for 200 miles, recheck to make sure nuts are tight. Also at this time you may wish to make adjustment.

1. Para la posición "Up-Lox", eleve la parte del carro para descargar los resortes. Esto le ayudará a instalar el Spring-Lox.
2. Para la posición "Down-Lox", se recomienda mantener toda la carga en los resortes posteriores.
3. Verifique el espacio libre para asegurarse que la unidad no rozará con partes del vehículo.
4. Aprete las tuercas de ajuste hasta una posición en la que la unidad quede firmemente apretada y las espirales han sido estiradas o comprimidas lo suficiente para que el Spring-Lox quede en una posición firme. Repita el procedimiento para el otro resorte.

Up-Lox

Down-Lox
