Product Specification

Product Name	Super Power Turbofan	Product Model	MegaFlow 100
Battery Capacity	3000mAh*2		
Charging Time	≈2.5H	In Put	5V≡2A
Product Size	16*4*6cm	Product Weight	about 300g

Version 4.0 manual indicates Battery Capacity:
22.2 WH

Attention

In order to minimize equipment malfunction, electric shock, injury, and device or property damage, please be sure to observe the following safety precautions:

I. Usage

Please do not put the air inlet of the machine and hair contact, otherwise it is easy to hair into the machine.

- Do not block the air inlet of the machine (especially the skin), otherwise the machine may be damaged due to overheating, or burn the user.
- Do not use the charging cable if it is seriously hot, or it may cause burns, electric shock or fire due to short circuit.
- When using the device to inflate the swimming ring accessories, due to the small air outlet, the machine air volume is large, the machine may be higher heat, please hold the machine, the palm of the tiger away from the power button.
- Please do not use the air nozzle to blow dust.

II. Product storage

- Do not immerse the product in water.
- Keep the product dry, do not store or use the product in a humid environment.
- Do not store or use the equipment near liquefied petroleum gas or other flammable products (e.g. volatiles, paint thinners, sprays, etc.), which may lead to explosions or fires due to short circuits.
- Keep the product out of the reach of children and infants.
- When the machine is abnormal or malfunctioning, such as no air coming out, stopping frequently, reddening inside, smoke coming out, please stop using it immediately, using this product in this case may lead to injuries or fire due to short circuit.
